

# C 5-Finger Position

We call this the **C 5-Finger Position** because:

1. Both our **bottom** fingers (our pinky in our **LH**, and our thumb in our **RH**) start on **C**, and
2. We use 5 fingers (on different **white keys**, next to each other) for this pattern!

Remember, we can always find any C at the **bottom** (or the **left**) of the 2 **black keys**!
